

## Neighborhood Watch Monthly Newsletter

# October 2008

*It's your community – Get involved!*

### [Crime Reports.com](http://CrimeReports.com)

The Sandy City Police Department has introduced a new tool that will provide the citizens of Sandy with a look at crime data down to the specific neighborhood or block they live on.

[CrimeReports.com](http://CrimeReports.com) is a standardized way to communicate crime data in near-real time, and in an easy to understand and usable format. It is free to the public and includes optional e-mail updates.

The information is pulled directly from the Records Management System of the Police Department and presented in categorized web-based software. Crime incidents are highlighted under 15 general crime type categories and 21 subcategories of crime activity within our jurisdiction. This allows the data to be easily sorted by crime type, by date or by distance from a location. It is then presented on an interactive map display using standard map controls.

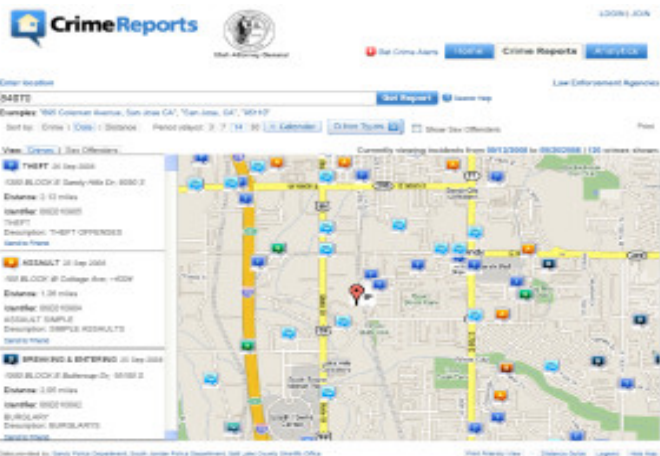

We believe that the data will help increase public awareness of local crime issues, and encourage citizens to work cooperatively with local law enforcement to improve the safety of their families, property and community.

We hope this tool will empower you to make informed decisions to avoid becoming a victim of crime and to prevent and reduce crime in your area.

Please be aware that there are some limitations to this program before viewing the map:

- The SCDPD makes our data available to [CrimeReports.com](http://CrimeReports.com) once every 24 hours. Not all will be made available based on the sensitivity of the data.
- The SCDPD maintains full control of all crime data and determines what will be available to the website. The SCDPD does not have any control over how it is interpreted or presented on the [CrimeReports.com](http://CrimeReports.com) website.
- The base maps used by [CrimeReports.com](http://CrimeReports.com) may be dated or contain errors.
- Some addresses including new neighborhoods may not yet be available.
- The charts and graphs shown on this site are created and maintained by [CrimeReports.com](http://CrimeReports.com).
- The analytical section should be used as an information tool only.

We encourage you to visit [CrimeReports.com](http://CrimeReports.com) to be aware of what is happening in your community. This is a great Neighborhood Watch tool!
